## DEATH MAY HALT ANY NEW TRIAL

First Trial Halted On Mon-

Defendant

(International News Service)  
CHICAGO, Jan. 23.—Physicians  
pronounced as very serious to-  
day the condition of Dr. Alice  
Lindsay Wynekoop, whose trial  
for the operating table murder  
of her daughter-in-law Rheta,  
was called off due to the aged  
physician's enfeebled health.  
Another attack of angina pectoris,  
followed by severe pains about the  
heart, further weakened the bril-  
liant 62 year old physician. In her  
cell at the county jail Dr. Wynekoop  
is examined frequently by Dr. Con-  
stantine Theodore, jail physician.

"She is a very sick woman and  
her condition is such that she is  
likely to die today or might live  
several weeks yet," Dr. Theodore  
said. "She is very weak."  
While the state was completing

(International News Service)  
PITTSBURGH, Jan. 23.—Open  
warfare between fraternity and non-  
fraternity groups on the university  
of Pittsburgh campus loomed today  
as petitions were circulated by the  
former faction seeking to abolish  
the student self government associa-  
tion.

The association, which includes  
the student council, is dominated by  
fraternity groups.  
The petition suggests a substitute  
government consisting of two mem-  
bers of the present council, four  
seniors, one faculty member and two  
persons to whom the petition is ad-  
dressed—acting dean of men Walter  
Rome and dean of women Thyra  
Amos.

Circulated quietly, the petitions  
described the present government as  
cumbersome and accuse the leaders  
of "petty politics."

## Elaborate Means Taken To Protect Miss Doris Duke

Would Be Almost Impossible  
For Kidnapers To Seize  
World's Richest Girl

Is Secluded On 5,000 Acre  
Estate In New Jersey;  
Big Bodyguard

By DAVID P. SENTNER  
International News Service Staff  
Correspondent  
SOMERVILLE, N. J., Jan. 23.—  
It would be easier perhaps to  
kidnap the Queen of England  
than Doris Duke, America's  
wealthiest heiress.  
The world's richest debutante,  
with the super-safety of her  
5,000-acre county estate, one  
half mile from here, today took  
lightly the report that kid-  
napers were threatening her.  
A member of her retinue denied  
published stories that she had fled  
from New York City to the security  
of Duke Farms after receiving a  
"death threat."

It was pointed out that Miss Duke  
receives a vast amount of mail in-  
cluding many demands for money  
from cranks.

Hard-Fast Rules  
Furthermore, the slender blonde  
and modish dollar-princess has ten  
hard-and-fast rules for thwarting  
the plans of potential kidnapers.  
They are:  
1. She has more guards than ser-  
vants and each of her many ser-  
vants is checked up regularly by a  
private detective agency.  
2. She seldom tells anybody but  
her mother, Mrs. James B. Duke,  
widow of the tobacco magnate, or  
her half-brother, Walker Patterson  
Irman, where she is going.  
3. She is generally accompanied  
by her mother, half-brother or both.  
She is never without a chaperone  
and a bodyguard.  
4. She permits the impression to  
gain circulation that she is where  
she is not. When she is reported at  
Duke Farms she is generally stay-  
ing at her town house in New York  
City. And vice versa.  
5. She frequently wears tortoise  
shell glasses as a disguise.  
6. She never looks at a camera in  
the "eye." By avoiding photogra-  
phers she makes identification more  
difficult.  
7. She does not go in for very  
much social activity. This decreases

her father, James Buchanan Duke,  
tobacco king, is reported in seclusion

## Mind Blank Two Weeks Says Husband Of Woman He Reports Suicide Victim

(International News Service)  
NEW YORK, Jan. 23.—In a  
Brooklyn police cell Cloyd  
Koonitz, former stock broker, to-  
day strove to pierce the hazy  
veil shrouding the past two  
weeks while police checked his  
amazing tale of the suicide of  
his wife, Rose Elizabeth, in their  
apartment about ten days ago.

Koonitz, who is 46, was held  
on a homicide charge for hear-  
ing later in the day.  
Police, meantime, sought to verify  
his story that about ten days ago  
Koonitz came home, found his wife  
unconscious on the floor of the  
kitchen, gas pouring from a stove,  
sought to lift her to a chair and felt  
his mind go blank.

Mind Blank Ten Days  
From that point, Koonitz told police,  
he was uncertain what had oc-  
curred. He only recalled, indistinctly  
and uncertainly, that he put on  
his hat, walked out of the apart-  
ment and for ten days wandered  
about, even visiting relatives in  
Ohio, with his mind a virtual blank.  
Obviously as bewildered as Koonitz  
himself, police were uncertain as  
to disposition of the case. The for-  
mer broker was finally held on a  
homicide charge on the technical  
ground that by leaving his wife in-  
stead of promptly notifying authori-  
ties of the suicide attempt, he had  
aided in a homicide.

Death of Mrs. Koonitz, who was  
43, was discovered yesterday when  
her husband went to the office of

## Mozesz Is Removed From Hospital Room To County Jail Cell

Quickly and quietly, John Mozesz,  
held as the slayer of Rose Baugh,  
was removed from the New Castle  
hospital Monday afternoon at 2:45,  
to the Lawrence county jail. There  
was no advance notice given of the  
removal and as a result it was ac-  
complished without a crowd of  
curious pressing around the hospital  
doors.  
At 2:45 Sheriff Edward D. Prit-

and State Police Officer Andrew  
Hughmanick appeared at the hos-  
pital. "We're going to give you a  
little ride" said the sheriff to  
Mozesz.

Seems Pleased.  
Mozesz seemed pleased at the idea  
and smiled as he began to get ready.  
The hobbles were taken from his  
feet and he was dressed in a few  
minutes. The ride was a short one,  
merely from Phillips street to the  
county jail on Court street, but short  
as it was it was the last time Mozesz  
will be on the streets of New Castle  
for some time at least.  
He made no comment upon his  
crime nor upon anything else.  
To questions put to him he either  
assented by nodding his head or did  
not answer at all. All the time he  
was being taken to the jail.

## Family Denies Contact Report In Kidnaping

St. Paul Banker Now Miss-

## REPORTS IN CASE ARE CONFLICTING

Mingled Fear And Hope Ex-  
pressed In Case Of Ed-  
ward G. Bremer

By THOMAS F. CULLEN  
International News Service Staff  
Correspondent  
ST. PAUL, Minn., Jan. 23.—  
Amid conflicting reports  
that contact has been estab-  
lished with the abductors of  
Edward G. Bremer, wealthy  
banker, authorities expressed  
mingled fear and hope to-  
day for the safety of the vic-  
tim held for \$200,000 ran-  
som.

Bremer today had been missing  
for six days, yet the family, one of  
the wealthiest and most influential  
in St. Paul, persisted in their denials  
that no word has reached them from  
the kidnapers since the day the  
banker disappeared.

Patently Waiting.  
Some authorities were frankly  
fearful that Bremer was or will be  
murdered by his abductors, while  
others expressed hope that the pass-  
ing of six days only indicated that  
the kidnapers were patiently wait-  
ing a favorable opportunity to con-  
tact family friends.

Meanwhile, none of the officials,  
either city, county or federal, were  
taking any active steps in running  
down the gang. They were "stand-  
ing by" to give the family a chance  
to deal directly with the captors,  
unembarrassed by attempts to ap-  
prehend the gang which seized Bre-  
mer from the streets here in broad  
daylight.

Adolph Bremer, father of the vic-  
tim and an influential Democratic  
political leader, has provided the ne-  
cessary \$200,000 ransom money in  
old bills. But friends of the Bremer  
family declared that the money will  
not be paid until definite assurance  
is received that the banker is alive.

# PLAN TRADE AGREEMENT WITH CUBA

## New Deal For Cuba Planned

American Recognition Of New Cuban Government Is Expected Shortly

### ECONOMIC AID TO BE EXTENDED

By KINGSBURY SMITH  
International News Service Staff Correspondent

WASHINGTON, Jan. 23.—With formal American recognition of the new Cuban government of President Carlos Mendieta expected momentarily, the United States today was preparing to give Cuba a "new deal" both economically and politically.

This "new deal" for measures designed to aid the economic rehabilitation of the island republic followed at a later date by abrogation of the so-called Platt amendment, under which the United States has the right to intervene in Cuba.

Jefferson Caffery president Roosevelt's personal representative at Havana, already has notified Mendieta he will be prepared to open trade discussions as soon as formal recognition has been extended and the new Cuban government is functioning smoothly to permit its members to devote time to the discussions.

Four Point Program  
The economic aid to be offered will be in the line with the four point program outlined by President Roosevelt at Hyde Park last August. This envisaged:

1. A new reciprocal trade agreement between the United States and Cuba designed to improve trade relations.
2. Inclusion of Cuba with Mexico and the United States and its possessions in a regional sugar-control agreement.
3. Reorganization of the internal and external debts of the Cuban government.
4. Establishment of the employees of Cuban sugar and tobacco plantations on small parcels of land on which they could produce their own subsistence when unemployed.

It is hoped the new trade agreement will be concluded in time for submission to this session of congress unless the president obtains authority to conclude such agreements without making them subject to senate ratification.

Besides a regional control agreement, the "new deal" on Cuban sugar is expected to include a reduction of about one half cent per pound on the tariff duty and allotment of a quota totaling about 2,000,000 tons annually.

## MOZESZ IS REMOVED FROM HOSPITAL ROOM TO COUNTY JAIL CELL

(Continued From Page One)

was being dressed and on his way to jail he said little or nothing and as he was taken into the jail and saw the cell blocks he evidenced no feeling.

All the time he has been in the hospital he has been non-committal, guards say, lying for hours at a time staring at the ceiling and smoking cigarettes. If he has any feeling in the death of the girl he shot he has said nothing about it. For a time he pretended he did not know she was dead but this pretense he abandoned several days ago.

### Preliminary Hearing.

Mozesz will be given a preliminary hearing at the same time the inquest is held, it is thought. The inquest should take but little time, there being no question as to how the girl met her death. Mozesz having said that he shot her when she refused to marry him. Little testimony will be necessary upon the part of the commonwealth to hold Mozesz for March term of court and the inquest and hearing should take but little time.

The murder of Rose Balogh, 19, of East Long avenue, occurred on the night of Friday, January 12, as she was on her way home. At a point east of Belmont avenue on Long avenue, Mozesz stepped out from back of a pole and asked the girl the same question he had been annoying her with for several months, "will you marry me?"

She refused, whereupon he pulled out a gun and fired, the bullet crashing into her chest and continuing on to the spinal column. She died almost instantly.

Mozesz then laid down along side of the girl and turned the gun on himself. This bullet hit him in the chest, deflected on a rib and took an upward course, deflecting again and coming out his left arm. He got up and ran but on Lutton street a passing motorist picked him up and took him to the hospital.

Mozesz was born in New Castle but when he was a small child his father and mother separated, the mother going back to Hungary with the children. Several years ago he came back to this country, and for a time worked in Pittsburgh, California, in the mills there. Some five months ago he came to New Castle and met Rose Balogh in the church she attended.

The father of Mozesz has arrived from Pittsburgh, California, and will probably stay until the trial of his son is completed in March.

Matthew Gunton of the city zoning commission today announced that following the meeting yesterday in council chambers, city hall where the school board appealed against the decision of the city engineer relative to his refusal to grant a permit for an eight foot wall at Taggart field, the executive committee of zoners met. The application for the wall was taken out some time ago by Garvin Ligo representing the school board.

## Japan Asserts Aim Is Peace

Foreign Office Spokesman Says Papers Misrepresent Country

### By JAMES R. YOUNG

(International News Service Staff Correspondent)

TOKYO, Jan. 23.—Japan is pursuing a policy of peace and the "war cries" appearing in Japanese magazines and newspapers do not reflect the official opinion, a foreign office spokesman declared today.

Referring specifically to the statement of a Soviet official recently that Soviet Russia regards a war between Russia and Japan this year as a possibility, the spokesman said: "Our policy is known to Moscow and to the world powers as one of peace. We cannot understand recent verbal attacks upon us."

The foreign office spokesman alluded to the recent speech of Soviet foreign commissar Maxim Litvinoff, in which he charged Japan was planning to embark upon a war of aggression, and to other official and semi-official statements emanating from Moscow.

"The Soviet authorities," he said, "are voicing violent and provocative statements against Japan. Why should newspapers in the U. S. S. R. emphasize the danger of invasion of Siberia?"

"Despite Russia's concentration of troops on the border between Russia and Manchukuo, we have not reinforced our frontier detachments."

The spokesman voiced indignation over Moscow allusions to the danger of a Russo-Japanese war, pointing out that Japan had accepted the invitation of the Manchukuo government to act as intermediary in her dispute with Soviet Russia over the Chinese Eastern railway.

"Recent articles appearing in Japanese magazines," he said, "do not reflect the real situation. It is fiction which responsible officials of the foreign office do not endorse."

## Woman's Club Members Hear Musical Program

Most spectacular and interesting was the program presented Monday afternoon in the Highland church for the members of the Woman's Club by the Literature and Music departments of the club.

"A Century with Pennsylvania Musicians" was presented in a most unique manner and the stage setting was perfect; a fire place was arranged and an open fire was the background of the picture, with an old spinning wheel at one side and old coverlets forming the drapes over the screens.

Mrs. Robert M. White was general chairman of arrangements, with Mrs. C. H. Johnson, Jr. vice. The stage setting was arranged by Mrs. George Fox.

As the program opened Mrs. J. Johnson Fisher, arrayed in an old fashioned gown, gave the prologue, "Before An Open Fire" and then seating herself before an old melodeon, which was borrowed from Mrs. David Jameson, she played Stephen Foster melodies.

Mrs. W. A. Pond, charming in a white gown, was the historian of the afternoon. She gave a brief resume of the life of Stephen Collins Foster, then appeared Mrs. Harry Gormley and Mrs. Jay L. Reed, both arrayed in gowns of an early period, with hair piled high on their heads and dresses trailing. The gowns worn by them were heirlooms of Mrs. Howard M. Kirk, the one worn by Mrs. Reed having been her mother's wedding gown.

Mrs. Gormley sang "Old Folks At Home," "Old Kentucky Home" and "Susannah," with Mrs. Reed at the piano.

The next Pennsylvania musician whose works were presented were those of Ethelbert Nevin, with Mrs. Pond giving a short history of his life, after which a group of his compositions were interpreted most excellently by Michael Caruso and his violin, with Mrs. Paul Welsh at the piano. The group included "A Day in Venice," "Dawn," "Gondoliers," "Venetian Love Song" and "Good Night," lilting, amorous melodies.

The next musician's history given was that of Charles Wakefield Cadman, his songs of lyric beauty being interpreted by the exquisite contralto voice of Mrs. W. P. Belch, with Mrs. J. M. Pyle as her accompanist. The group of songs included "The Moon Behind the Cottonwood," "I Hear a Thrush at Eve," "My Lovely Rose" and "Spring Song of the Robin Woman."

The life of Harvey Bartlett Gaul was then reviewed and Mrs. James A. Rugh, with ease and grace interpreted his number "Go Tell It to the Mountain" and "Thou Art the Night Wind," a song which the composer dedicated to Sue Harvard, well known singer of this city and New York. Mrs. Paul Welsh was her accompanist.

Mrs. Pond gave a brief resume of the life of Garth Edmundson, New Castle's own composer, who has contributed many compositions to the organ literature of the century, as well as compositions for the piano.

Miss Kathryn Newbury, with expressive touch, played his numbers "Bells Thru the Trees," which Marshall Bidwell of Carnegie Hall, has ascribed to her, and "Tocato in Ancient Style," Mrs. Rugh then sang his numbers "Reflections" and "Into the Silent Forest."

The program was most highly appreciated by the hearers, who filled the down stairs and balcony of the assembly room of the church and many thanks were given the women who had arranged for such a delightful afternoon.

A clever novelty act in two parts was presented by Josephine Hoover, "The Italian Fruit Vendor" and "The Gypsy Girl" Fred Gillespie sang a number; Frank Hyler gave a reading "The Colored Parson" Dorothy Truby had a song and dance number.

A one act comedy "How the Office was Cleaned," was presented by George Roof, Lucy Pettitt, Marie Roof and Elder McCormick. Dorothy Truby presented an acrobatic dance after which C. W. Fenton grand warden of the grand lodge of Pennsylvania, spoke and the program closed with a bagpipe duet by M. Findley and Richard Hill with Mrs. Hill as the accompanist.

## UNUSUAL C. W. A. BENEFITS

A TRACT of land recently given to the state of Indiana is to be converted into a game preserve and recreation park. At present, a large part of the tract bears the ugly scars of strip coal mines. A CWA project, already started, is to cover those scars with pleasant lakes which eventually will be stocked with fish. Similarly lakes are being added to the scene in other parts of Indiana where forests and hills have lacked only occasional lakes to make them ideal vacation spots.

This is a type of reclamation which should arouse general satisfaction. It does not put more acres under cultivation, but opens them instead to healthful recreation. There might be a good deal more such conversion of unattractive and seemingly useless land into woods and lakes for public enjoyment.

Many unusual benefits are being derived from CWA projects in every locality in America at the present time.

## RUSSIAN TRADE

The question of Russian trade, which was counted on previous to recognition of the Soviet to play an important part in stimulating business recovery here, continues to occupy an uncertain future status.

American business men naturally were hopeful that Russian buying on a large scale would begin soon following recognition. This was their attitude in spite of the fact that it was known that Russia would have to have adequate credit here to finance its purchases.

No material change has taken place in this situation, but this does not mean the Soviet will not become a large consumer of American products. According to Ambassador Troyanovsky in Washington, Russia is in need of \$1,000,000,000 worth of goods, the greater part of the orders for which "could go to the United States, but the question will be decided by our ability to pay."

"As regards paying for our purchases in this country," he continued, "we produce some gold and we also export furs. What we take from you, whether it is producers' goods for consumers' goods, depends mainly on the progress of the five-year plan. We are developing so rapidly that our own needs are enormous, which also limits our ability to export."

Rather than become impatient with the slowness of Russian orders, American business men might serve their own interests better by looking more to the future than to the present for realizing their hopes with respect to Russian trade.

## "BASIC LIVING REQUIREMENTS"

Some notion of what constitute the basic requirements of a decent living in these times may be obtained from the schedule of minimum essentials filed in court at Los Angeles by a young lady suing a prominent crooner for divorce. Here are a few items:

For five servants—butter, cook, chef, chauffeur and personal maid—\$500.  
For clothing, \$2,000 a month.  
For running the house, including food, fun, medicine and entertainment, \$1,000.  
For salary of secretary, \$150.  
For services of masseuse, \$150.  
For cosmetics, jewelry, flowers, laundry, automobile upkeep and household expenses not otherwise covered, enough to make the monthly total \$7,450.

That seems to make a total of \$89,400 a year. Really, most of us wouldn't have had any idea that it would cost so much for a young woman without children to keep up living standards. But probably that just shows how little we know about it.

The president of the United States seems to get along on a smaller salary than that. But then, he's just the president.

## DIME NOVELS IN THE HALL OF FAME

Back in 1859 Erastus Beadle of New York conceived the idea of the dime novel for the benefit of youthful Americans. It made a hit because it gave the youth of that period not perhaps what it needed, but what it wanted. It was followed by half-dime novels and soon the country—or at least the youthful part of it—was devouring these yellow paper-covered tales of Deadwood Dick and his contemporaries.

Stern fathers thrashed young hopefuls for reading these thrillers; they were banned by moral censors. But things are different now. The dime novels have been formally placed in the rare book department of the Library of Congress. First editions sell at surprisingly high prices, and many a white-haired man will go into the splendid building at Washington just to take a look at the once familiar yellow backs.

The truth of the matter is that they were never so bad as they seemed to some strict parents. Seen through the eyes of modern youth they are almost tame. In one respect they even attain a sort of dignity, because the outlaw in those tales was a gentleman and a scholar compared with the murderous bandit of our own times.

## FEBRUARY 2 COMING SOON

Of all the weather superstitions, perhaps none has been more widespread than that associated with Groundhog Day, February 2. According to a belief held by many, the groundhog emerges from his winter hibernation on that day, and if he sees his shadow he goes back into his hole for another six weeks, during which a continuance of winter weather may be expected.

If, on the other hand, February 2 is cloudy, the animal will remain outside, which is a sign of an early spring.

Just how the groundhog keeps track of the date, including the extra day in leap year, is not explained, but many actually believe he does it.

Other animals than the groundhog are supposed to behave similarly. In Germany it is the badger; in England the hedgehog; in France the marmot, and among the Scandinavians the bear.

Maybe it's a man's world, but you never see an important citizen being patient with a mere male who annoys him.

England is trying a man for threatening to wash dirty royal linen. What is the charge, unfair competition with the tabbies?

That Columbia professor who said "There are no absolute truths; only opinions" was of course not stating an absolute truth; only an opinion.

Suggestion to wives. If you want to be happy keep this thought in mind: The other men you could have married might have been even worse.

### TAKE CARE—EVEN WITH OLD FRIENDS

How many times it is true that one's dearest and nearest friends seem to be less understanding than strangers.

People are inclined to judge by what they have in their own hearts. You may touch an undercurrent that your friend has never expressed in words.

It may be a sensitive subject that has gone deep.

You two have been rather intimately associated for so long that you dare to speak out freely.

Yet you should remember that no matter how well acquainted you feel you cannot be ruthless in speech and be always understood by the best of friends.

Why not cultivate a certain discretion in expressing opinions? Not only think before you speak but think kindly.

If what you would say might not sound kind in all circumstances do not say it to your nearest friend.

Kindness is a virtue more appreciated than possible to express.

Feel kindly—but yourself in the other's place—and then don't say all you think, in any case, if it might hurt.

In the end it might react and hurt you worse.

### SPEED IN THE '90'S

Speaking of speed thirty-four years ago newspapers were filled with "Mile-a-Minute" Murphy's stunt of riding a bicycle more than a mile a minute.

Murphy, a young professional bicycle rider, was able to ride that fast under the right conditions. With the aid of a railroad official he smoothed these conditions.

A smooth board track was built between the rails on a level stretch of road on Long Island. A coach coupled to a locomotive had a sort of stall extension built out from its rear. This provided a near dead air space in which Murphy rode his wheel unaffected by air resistance.

The engineer was ordered to speed up to 60 miles provided Murphy could keep up. He did keep up and the engineer increased his speed until a record of 57.4-5 seconds for a measured mile was reached, which still stands as a world's record for bicycles.

### SEPARATION

We learn this truth from death: that life alone is filled with separations. Those who die are separated from us.

Never again take train or say good-bye.

Or shut the door. Where'er our paths are thrown.

They too can go and make their presence known.

We who are living wait with wistful eye.

Watching for one we love to end the sigh.

Of loneliness that chills our narrow zone.

We who are living know the space is great.

Which oft divides us, and the hours are long.

We of the world must often separate. The walls which shut us out are stout and strong.

But neither time, nor space, nor duties grim.

Can keep a man's beloved dead from him.

TOO MUCH FREE TIME  
Few people, even those who do the least interesting work, contemplate with any enthusiasm the proposals for a two-day working week of a four-hour working day.

A reporter asked people in all walks of life what they would do with their time if they had five days of freedom from toil.

One printer told the reporter that two free days a week were all he could stand.

In one free day he now cleans the garage and basement, and in summer mows the lawn. On some days he attends two shows.

"Could you string your home work out so that it would last five days?" he was asked.

"Not a chance," he said.

"The whole thing is nuts," was the comment of another printer.

"You may quote me for that. Why do I do on my extra day off? Sleep. But you can't sleep five days a week."

A third printer said he usually spent his day off listening to the radio or going to a show.

"Would you enjoy listening to the radio five days a week?" he answered. "I couldn't stand a show five days a week either."

The reporter discovered few people who were conscious of any shortage of time for reading or study or the pursuit of a hobby. He found that the average man hasn't even a single book to finish. Nor does he have any unfinished imposed tasks, such as the mastery of a foreign language, the neglect of which irks him.

Most people are frankly grateful that work consumes the major part of their working day. It is the tonic that gives spice to their limited freedom.

Here is a letter an Oklahoma man who moved to Texas wrote back to an old friend. We found it in an Oklahoma paper: "Well since I sold the little farm in Arkansas I have prospered. You know we always lived in the one-room shack, but I came to east Texas and bought a farm and pretty soon I leased it to an oil company and was sure lucky. They hit a big oil field on the place and now I have a big house in Alto. It has six rooms. There is one room that we do nothing but eat in. There is one that we just sit in: two rooms

that we don't do anything but sleep in: one room that we don't do anything but cook in and there is one that is white and has a place that you can wash all over and over in the corner is a place that you can wash your hands and face in, and over in the other corner there is a place you can wash your feet in. When we moved there were two lids on this, but we have taken them off. We are using one of them for a couch board and we have framed grandpa's picture with the other one."

Looking Backward  
Peace Hopes  
A New Hero

By LESLIE EICHEL  
Central Press Staff Writer  
NEW YORK, Jan. 23.—Today we finish our looking backward. The correspondent who urged it, by means of "interpreting" "16 historic front pages" of The Chicago Tribune, perhaps realized many of the headlines would appear ironic now.

Yesterday we told of the American entry into the war, "To make the world safe for democracy."

Now we come to another historic date.

On Monday, Nov. 11, 1918, we read:

"Great war ends. . . . Use wireless to give word to sign truce. . . . Germany uses nearly all of 72 hours of grace. . . . Republic set up in Berlin by Socialists. . . . Manifesto pledges government of and for the people. . . . Kaiser flees with staff to Holland. . . . Red flag flies over all big German cities. . . . Rebels continue to gain. . . . May exile all kings."

In Chicago, itself, a rhapsodic reporter, writes of his paper getting out on the street amid the pandemonium of joy, "telling the people that the hour of democracy throughout the earth had struck."

And 15 years later the world is ruled by dictators, with far more power than kings.

SURRENDER TERMS  
Then, on Tuesday, Nov. 12, 1918, headlines scream:

Full surrender by foes. Wilson tells world terms enemy yields. Congress goes wild with cheers as he speaks. . . . Ex-Crown Prince reported shot; Dutch dispatch. . . . Holland may refuse asylum to Wilhelm. Dutch may object to Hohenzollerns as residents. . . . British Vessel sunk at Gibraltar Saturday. 711 saved. . . . The ship was the Britannia. The war virtually ended, but not officially, so more men died until the red tape was gone through.

PEACE TREATY  
Peace treaties are full of political chicanery. It wasn't, therefore, until Monday, June 9, 1919, that the paper could obtain terms of the Versailles treaty, secretly conceived.

In the same paper we read the headlines over a dispatch from Paris:

"Cause he couldn't afford to hire a stenographer, I guess."

Scene: 60 miles SE of Nantucket. Six died when the ships crashed, but none were lost when the Republic sank and the Florida limped into port. Still active are Captains Sealy of the Republic and Ruspini of the Florida & Binn. SOS did not become the distress signal until later.

1923—The 20th amendment to the constitution was ratified by Missouri (the 36th state). Georgia, Utah & Ohio. It cut 43 days off President Roosevelt's term, wired out "long duck" congressional sessions and the next inauguration for Jan. 20, 1937.

Forgotten Heroes of Yesterday—Don Perignon. A Benedictine monk appointed cellarer to his monastery in France in 1668 he first conceived the idea of wedding choice grapes from the monastery's vineyards, discovered that black grapes yielded a better white wine than white grapes, devised the first cork stopper, eventually evolved an effervescent wine more symbolic today of unrestrained gaiety than of the somber scenes within a monastery. Today some of the best champagne-types come as they did in 1668—prohibition from the United States.

# Hopkin's Tells Problems Of Nation's Unemployment

By PAUL C. YATES  
International News Service Staff Correspondent  
(Copyright, 1934, by International News Service)  
WASHINGTON, Jan. 23.—Pausing a half minute to pick up the telephone and authorize the expenditure of a million dollars, Harry L. Hopkins, federal relief administrator, today described to International News Service plans to solve the nation's unemployment problem along permanent lines.  
This administrative genius, who has supervised the expenditure of \$3,000,000 a day for jobless relief during the last eight months, rang the buzzer on his desk.  
"Bring me some cigarettes," he requested his secretary. "And would you mind paying for them? I'm out of money."  
Hopkins admitted it was a fairly big job to hire 4,000,000 unemployed in a month, without permitting the entry of scandal or waste into the far-flung civil works administration.  
"That large a hiring job was never done before, I suppose," he added.  
**Long-Time Problem**  
Unemployment will be a most serious problem for a long time to come, according to his view, and permanent as well as temporary policies must be adopted to combat it.  
Re-employment of the idle was described by Hopkins as a joint responsibility of federal, state and local governments and of private industry.  
"There are functions of great benefit that obviously can never be fulfilled by private initiative," he pointed out. "One of these is to re-

## AROUND CITY HALL

Police chronology for 24 hours, ending 3:30 p. m. January 22, 24 arrests, on charges as follows: traffic violations 11, intoxication 3, proprietors of disorderly houses, 2, inmate of disorderly house 1 and visitor to disorderly house 7.

Since the departure of Charles Settle from the role of city dog catcher some of the canines have been acting as though they know there is no dog catcher. As a result many complaints have been registered with police. A few nights ago a howling dog kept some North Hill residents awake and it is not uncommon for reports to be received at the police station stating that garbage cans have been bowled over when big dogs put their paws against the can and shove it over. Some days ago Col. Stevenson was asked if the Humane Society here plans to recommend the appointment of a canine snatcher and he replied that "they would if the right kind of a man for the job is found." The society does not wish to name any one who will conduct the job other than it should be conducted.

It is not likely that any of the bootleggers, or for that, purchasers of bootleg liquor can expect lenient treatment in the future if they happen to get caught, and land before Mayor Mayne. He has made it plain during the past few police court hearings that it being legal to purchase liquor from a state store there is no reason why persons should sell moonshine or purchase the illicit beverage. He has pointed out that it is against the law of Pennsylvania to have unstamped liquor. To his way of thinking the law is more drastic now than before. He has already sent one alleged bootlegger to court with the result that he was given a salty sentence.

The city ordinance affecting persons who come here and sell direct to the consumer means what it says and violators will receive no leniency. The police lately have been active and several Old persons who sold foods and perfumes from door to door, making a delivery and accepting cash for the same, have paid fines because they had not complied with the city law. In making arrests of this kind the police are protecting home business.

Police cars are used considerably these nights as one of the innovations put into effect by Chief Haven is working out fine. He inaugurated the practice of persons who intend to be away from their residences, sending notification to this effect to headquarters. During the day police in scout cars visit the homes and at an alert visit is also kept. This goes far toward eliminating robberies.

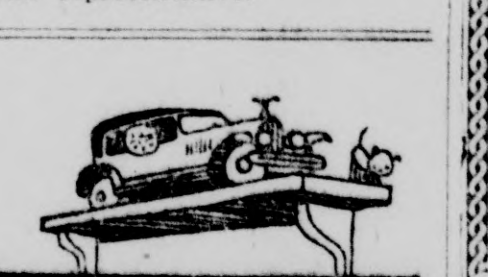

It is a well known fact that even jurists, attorneys and doctors must have their relaxation but they are not much given to surprise, however some of them were quite agreeably surprised Saturday when a dentist made a hole in one at the New Castle field club. In the foursome were Judge James Chambers, Attorney Richard Dana, Solicitor R. M. White and Dr. W. P. Feich. They were at the thirteenth hole and Dr. Feich drove for the thirteenth hole. They thought the ball was lost and hunted for it. They left another foursome ahead of them and according to City Solicitor White the caddy surprised them when he said that Dr. Feich's ball had gone into the thirteenth hole.

### Meermans Tells Of Employment Here

Ministers Are Told How C. W. A. Workers Were Given Jobs

Meeting of the ministerial association at the First Presbyterian church Monday morning was largely attended. The speaker was R. L. Meermans, director of the employment department of the Civil Works Administration of Lawrence county. He said that his bureau had registered more than 10,700 applicants for employment. Of this number 3,854 men had been given employment and this represented approximately 17,805 persons who had received benefit. It is mandatory upon his office to give 50% of the jobs to persons who were previously on the relief rolls, and further to give preference to veterans with dependents. These restrictions have made the task of the director very difficult and have made it impossible to satisfy everybody. A bureau of investigation has been set up through which it is hoped in the future to function more equitably. Mr. Meermans expressed the hope and expectation that when the employed force under the C. W. A. is demobilized the unemployment will be absorbed by the Public Works projects and by the general improvement in working conditions throughout the country.

## Resignations To Continue

Democratic House Cleaning  
In National Committee To  
Be Speeded Up

EXECUTIVE POST  
HOLDERS AFFECTED

GEORGE R. HOLMES  
International News Service Staff  
Correspondent

WASHINGTON, Jan. 23.—The political house-cleaning decreed by the white house, which already has caused several resignations from the Democratic National Committee, moved ahead today in several directions.

In Washington, it is expected to result in a new batch of resignations by committee members who hold executive posts in the administration.

To Reduce Tammany

In New York, administration leaders are bent upon reducing Tammany to the status of a county organization, stripping the wigwam of the overlordship of New York democracy which it has enjoyed in recent years.

The death of John H. McCooney, the Brooklyn boss, so long allied with John F. Curry and his predecessors in Tammany leadership, is expected to facilitate the trimming of the tiger's claws. The way is now open to bring about a new Brooklyn leadership which will "play ball" with the Roosevelt leadership in the Bronx, rather than with the anti-Roosevelt leadership of Curry in Manhattan.

If administration plans succeed, Curry's organization will find itself sandwiched in between two larger and more powerful county organizations that will look to the white house for guidance rather than to the wigwam.

ley, the political generalissimo of the administration, will have charge of the Tammany reducing exercises. He leaves the capital today to attend McCooney's funeral and to confer with Roosevelt leaders in the Bronx, Brooklyn and Manhattan.

The new resignations of Democratic National Committee members are expected to include:

Mrs. Nellie Tayloe Ross, Wyoming, director of the mint; W. A. Julian, Ohio, treasurer of the United States; J. C. Adams, Texas, who is on the federal board of tax appeals; Horatio Abbott, Michigan, internal revenue collector at Detroit; Dudley Doolittle, who is connected with the Federal Land Bank; W. W. Howes, South Dakota, recently named first assistant postmaster general—and ultimately Farley himself. Farley has already urged the president to find his successor as national chairman.

All these officials will have the choice of resigning their government posts or their committee membership. As the positions pay salaries, while the committee posts do not, it is expected they will elect to retain their jobs.

Two additional resignations from the committee may be forthcoming in Arthur Mulien, Nebraska, and Ormon Ewing, Utah, both of whom have been practicing law in Washington since March 4.

## Shoaff Attacked By Police Dog

Dog Breaks Away From Youth,  
Attacks Youth Riding  
Bicycle

Paris Shoaff, Jr., son of Dr. and Mrs. Paris Shoaff, 1405 Highland avenue, was attacked by a police dog, on Monday evening. He was bitten on both legs. The laceration on his left leg was quite severe, according to a report made by Dr. Shoaff to the city police. The dog was ordered tied up for 10 days for observation purposes.

According to the report the boy, was riding a bicycle and John W. Patton's police dog was in company with Patton's son. The latter had hold of its collar. The dog broke away from the lad and is said to have attacked Shoaff who was riding a bicycle.

## Post Offices Are Robbed By Daring Gangs

Six Post Offices In Philadelphia Area Have Been Robbed Lately

THOUSANDS OF DOLLARS TAKEN

(International News Service)  
PHILADELPHIA, Jan. 23.—Six Philadelphia post offices in outlying section have been looted of thousands of dollars in registered mail, stamps and cash during the past few months.

The series of robberies, believed to have been perpetrated by a band of organized gangsters, was revealed today when postal inspectors sought the assistance of state and Philadelphia police.

The latest robbery occurred Sunday when the Mt. Airy post office, located in the Germantown section, was looted of approximately \$10,000 in cash, stamps and registered letters. The robbers, described as expert safe-crackers, gained admission to the post office by filing through steel bars of a window.

In asking the assistance of Philadelphia detectives, postal inspectors admitted they have worked secretly for the past several months in a vain effort to apprehend the thieves.

## Mid-West Gunman Is Being Hunted In Eastern Area

Bridges, Highways And Ferries Are Guarded In Search For "Pretty Boy" Floyd

(International News Service)  
NEW YORK, Jan. 23.—Over the highways of Southern New York nearby New Jersey and Connecticut police scouts prowled restlessly today and bridges and ferries were under surveillance of heavily armed squads as a three state police net spread for Charles A. (pretty boy) Floyd, Oklahoma gunman and bank robber.

Authorities acted swiftly to intercept the desperado, believed to be heading for refuge here, after a report that a large sedan believed to be carrying Floyd and three companions was sighted crossing the Delaware river bridge between Morristown, Pa., and Trenton, N. J.

## Hopkins Plans Action Against C. W. A. Grafters And Meddling Politicians

(International News Service)  
WASHINGTON, Jan. 23.—Charging that graft and politics had put the Civil Works Administration "on the spot" Harry L. Hopkins, head of federal relief and civil works, today revealed he would prosecute grafters and that political meddlers of either side would be ousted from any civil works post they might hold.

Investigation of graft in both relief and civil works activities has cost "tens of thousands of dollars," Hopkins said, through the actual amount of the graft involved would not reach into hundreds of thousands, and was "very little comparatively."

Cut And Dried  
Politicians of some states, he revealed, "have had me licked from the start." Hopkins, as he revealed these facts, showed in his manner the strain he has been under, as the crisis approaches in the nationwide relief effort, about to be shut down because funds are limited.

Approximately 4,000,000 workers will be on the job—hunting line and if they do not find work will be

back on the bread-line, after May 1. Relief and civil works needs together call for just \$150,000,000 short of a billion dollars he revealed.

First intimations of difficulties in the field came when Hopkins abruptly transferred control over purchases for materials from local to his own hands, with the explanation that funds were getting low and must be expended more cautiously.

Handing Out Jobs  
On the political side, there have been indications for weeks that the spectacle of thousands of jobs being awarded simply on the basis of unemployment need, and not on any accepted political patronage plan has had local bosses in various communities gnashing their teeth.

"I can't blame the boys," Hopkins commented. "They have always been accustomed to handing out the jobs in their territory, and have the job-holder think he got it from them. They'll keep on doing it after I am forgotten. It's just the way those things have always been done. And those fellows are on the job 24 hours a day."

## Employees Fail To Sympathize With "Big Boss"

Pittsburgh Lunchroom Owner  
Robbed By Bandits, Asks  
Employees For Help,  
Refused

(International News Service)  
PITTSBURGH, Jan. 22.—Henry Pitsman, proprietor of one of the city's busiest lunchrooms and liquor dispensaries, professed himself today as still at a loss as to whether his employees were "one big, happy family."

Boosman has more than a hundred persons on his payroll. Such a man, he said, is not a "big boss" as he is known to his intimates, posted a bulletin apprising his staff that an "awful grief has befallen this institution."

He obligingly requested each to contribute \$1 from their pay each week until the loss had been made up because the "situation was not able to stand the strain."

Reports promptly got around that the move failed to "go over" with the employees and that the majority of them had organized a strike in protest.

The affair was apparently settled before many hours passed for the notice has been repeated today as usual. Boosman later said that the matter was only "feeler" anyway to learn how he stands with his subjects.

Special Washington Correspondent  
New Castle News

WASHINGTON, D. C., Jan. 23.—Any Lawrence county farmers who have signed crop reduction agreements will have an advantage over other farmers in the procurement of short term farm loans from the government, under a pact entered into by the Farm Credit Administration and the Agricultural Adjustment Administration.

Under the pact, loans will be made only to farmers showing satisfactory evidence they will cooperate with the government in controlling crops. The Adjustment Administration will provide the Credit Administration with the names of

all farmers who have signed crop contracts, and such farmers will need no further proof of their cooperation in order to borrow.

Other farmers wishing to borrow will be required to obtain a statement from the county council to the effect that a good attendance has been pledged. Such councils will be set up in each county by the Adjustment Administration.

The agricultural lending associations covering Lawrence county will be given the names of any county farmers who have already signed crop control agreements and may lend directly to these growers without any further evidence of intention to cooperate in the crop control program.

## McElwee Tells Of Special Session

Speaks Before Rotarians At Meeting In The Castle-ton, Monday

### GIVES REBUKE TO ATTORNEY GENERAL

Attorney General William A. Schnader of Pennsylvania was credited Monday by Representative William McElwee, Jr., Lawrence county's representative in the State House of Representatives, as being the inspiring force behind the plan of notification used when Governor Gifford Pinchot called legislators to Harrisburg for their special session last fall.

Before the Rotary club session in The Castleton, Assemblyman McElwee declared that, in his belief, it was nothing more or less than a "come-and-sign-on-the-dotted-line" procedure.

The notification plan which drew the rebuke from Mr. McElwee was that which carried the official notice of the legislature's convening to the members on the Saturday afternoon prior to the Monday chosen for the opening session.

Assemblyman McElwee admitted that newspapers for weeks had indicated the special session would be called and had predicted as best they could the legislation which Governor Pinchot would submit, but he said that nothing of that sort was official.

The legislator's remarks, in a nutshell, placed the blame for the "mighty short notice" on the attorney general—"I'm convinced that this plan was the fruit of his mind" was how Assemblyman McElwee summarized it.

#### Pinchot Is Fair

Just before referring to Schnader, Mr. McElwee told the Rotarians that "from my own observations Governor Pinchot is very fair and reasonable and has some very fine ideas," adding emphatically, that "the governor, however, seems to be surrounded by some very unfair men." He said Schnader was one.

The Rotarians were told, in the course of the assemblyman's message—a short report of the special assembly actions was what it was—that important legislation had been drawn up, in advance and held ready for the convening legislature.

"I've stood by Governor Pinchot when I've been convinced his ideas were right," declared Mr. McElwee, "and deserted him when I've felt his ideas were wrong. That has been my policy and will continue to be."

Legislation acted upon at the special session was pointedly reviewed by Mr. McElwee.

During their business period earlier in the meeting, the Rotarians, through a resolution, expressed their full confidence in and approval of CWA Administrator L. B. Round. They lauded him for his capable administration of the government's work relief in Lawrence county.

Present as guests for the luncheon were Right Rev. John C. Ward, Erie, bishop of the Erie diocese of the Episcopal church; Rev. P. C. Pearson of the Trinity Episcopal church; R. L. Meermans, superintendent of the Federal-State employment office; O. E. Decker, Youngstown, and J. R. Anderson, Pittsburgh.

Five-Year Program Inaugurated In 1926 Inadequate, House Committee Hears

### TWO NEW AIRCRAFT CARRIERS PLANNED

(International News Service) WASHINGTON, Jan. 23.—The five-year airplane program inaugurated for the navy in 1926 is now inadequate, Rear Admiral Ernest J. King, chief of the bureau of aeronautics, told the house naval appropriations subcommittee in testimony released Monday.

This program, which called for 1,000 airplanes, should be increased to 1,600, he said.

"Since the program was enacted, 15 new cruisers, one dirigible and one aircraft carrier have been added to the navy," he said. "No legislative provision has been made for the 212 airplanes carried by these vessels, none of which were provided in the five-year aircraft program."

Two New Carriers  
"In addition the president has recently authorized the construction of two new aircraft carriers and four additional cruisers. Two other cruisers have been appropriated for by congress. These vessels carry an aircraft complement of 73 airplanes

## On Court House Hill

All records for several months past were broken at the register and recorder's office last week when 149 instruments of all kinds were recorded, as against 63 during the previous week. This was largely due to a batch of 92 oil and gas leases taken in Scott and Slippery Rock township. There were 23 deeds recorded, as against 53 the previous week. The increase for the week ending January 13th was due to the recording of sheriff sale deeds. Twelve mortgages recorded totaled \$33,280, as against \$19,900 for the previous week. Three of the mortgages were to building and loans, amounting to \$16,000, presumably refinancing. Six mortgages, totaling \$10,480, were to individuals, and three totaling \$6,800 were to the land bank commissioner.

Justice of the Peace H. M. Reynolds of Union township announced today that he had to kill a big police dog which was a favorite around the court house when he was sheriff. The dog, known as Baron Steuben II, developed an affection of the hind hip, which failed to respond to treatment. "His name was suggested by Attorney Homer Drake," said Reynolds. "When the dog was a pup I was trying to think up a good name for him and Drake suggested Baron Steuben, but when I went to register the name I found that there was already one Baron Steuben registered. The dog was a very intelligent animal and used to help me when I was locking up the prisoners. I still have his mother. She has been very much dejected since her son died."

Sheriff Edward D. Pritchard made his first trip to the Western Penitentiary with prisoners last Saturday, when he took William Foley and Thomas Pindexter to that institution. He did not have time to go through the penitentiary, as he had to go on to the workhouse to bring back Enrico Vechione, who is trying to be released on a writ of habeas corpus. He was sent to the work on a liquor charge just before repeal came. Pritchard was accompanied to the pen with his prisoners by Policeman Harry Flinner.

## Work Is Started On CWA Projects

ELLWOOD CITY, Jan. 23.—Recently work has been started on a number of new CWA projects in this vicinity.

In Wayne township 35 men are employed on what is known as the Old Harlanburg road which begins at Ward's hill and continues to the Shenango township line, a distance of about four miles. The road will be straightened and widened and will be finished with a top layer of shale and gravel. Lewis Yoho is the road supervisor of the township and William Walton is foreman of the project.

Four thousand man-hours has been allotted to a project at the Park Gate school house which will be used to grade and level the lawn and make a playground for the children. A stone wall will be built around the rear of the lawn to prevent motorists from using the playgrounds as a street. The work is being done under the supervision of Dan Allison, and a goodly number of men are employed.

The school directors of Ellport boro have been granted state and CWA approval for their project which includes the dismantling of a two-room frame building erected during the early nineties. Parts of the building will be salvaged and used in the erection of a modern stone faced building on property owned by the school board in a more central and suitable location on the Ellwood-Wurtemburg road, adjoining the modern 6 room building of the boro. The work is expected to be started as soon as possible.

Work on the McCartney Hollow road has been temporarily abandoned due to the fact that insufficient funds have been allotted to the project. Work will be resumed providing more funds are granted for the project.

## Foremen Are Told How To Prolong Working Lives

Akron Physical Director Delivers Splendid Health Talk Last Night

SCIENCE, LIFE SAVING DEMONSTRATIONS

ELLWOOD CITY, Jan. 23.—Members of the local National Tube Company Foremen's club heard one of the most interesting and beneficial talks of the year at their monthly meeting in the Shelby Auditorium last night. The principal speaker of the evening was E. A. Conner, physical director of the Goodyear Tire Company of Akron, O., who used as his topic, "How To Add 20 Years to Your Working Life."

The meeting was a success from every angle—from the point of attendance, program and entertainment. Some business matters were transacted at this time. The club by an overwhelming majority decided to sponsor a Boy Scout troop in the city, which will mean taking over the Ewing Park troop which has no sponsor. The troop will probably be renamed. The troop committee will be named later by President J. E. McDaniel, who presided. The vote was the result of a recommendation by a special committee composed of Dick Downing, Tillman Snedden and Mr. Tink. Joe Gettig, a member of the club who has had previous experience in scout work will be the scout master.

John Brunot announced that some plant trips are being planned for the near future for members of the club. The social committee stated that plans for a family night are rapidly rounding into shape.

President McDaniel announced that in two weeks the club will hold a conference for the purpose of discussing the municipal building and swimming pool projects which will soon be voted on by the local citizens. A definite program in charge of Tillman Snedden is being lined up for this occasion.

Following this an open forum was held in which several men told of the outstanding and most impressive events of the recent Foremen's Conference at Youngstown, O. The speakers were General Superintendent J. W. Oufft, who pointed out that the foremen of today are young men, C. H. Wallace, W. R. Johnston, Homer Christie and John Wargo. Rev. C. Z. Bell informed the club members that G. C. Denniston, Jess Fehl and A. J. Dambach are recovering as well as could be expected of their serious accident about two weeks ago upon returning from the Youngstown conference. The latter is in the best condition of the three.

The speaker of the evening was introduced by Bruce Hunter. Mr. Conner advocated proper dieting and elimination of waste as the key to excellent health. He stated that there are over 30 ailments and some diseases which are absolutely unnecessary and can be avoided by proper dieting and elimination of wastes. He stated that one grave

Lawrence County farmers interested in crop and livestock production loans are issued an invitation to attend a meeting of the Production Credit Corporation of Baltimore, which will take place Thursday, January 25, at 1:30 p. m. in the Court House at Butler.

Farmers from Beaver, Allegheny, Butler, Venango, Clarion, Armstrong and Lawrence Counties have been included in the invitation.

## Ridley-Battley To End Careers In Butler Game

### Two New Castle High Floor Stars Will Be Ineligible Second Semester

New Castle high school basketball team, member of section three, will have to carry on in the second half of the league fight minus the services of the two sterling forwards, Archie "Merriwell" Ridley and Russell Battley. Announcement that Ridley and Battley will not be able to play the second semester was made by Principal Frank L. O'Neil of the senior high school.

Coach Phil Bridenbaugh is going to miss this pair of fine young forwards. They have played an important part in the success of the New Castle sectional championships for the past few years and their leaving the team will cause a couple of good sized holes to be filled up.

It is indicated that the fight for the two vacant jobs will be between Nigro, Tuscano and Ostrosky, but nothing definite has been decided upon along the line of replacements. This matter is entirely up to Bridenbaugh. Others to be considered will be Miles, Pratt, Hitchens, Fleming, Stevenson, Nahas and Wlosky.

Ridley was also a football player of real ability, handling the quarterback back post in fine manner last fall, and while he did not carry the ball very often, he was a fine blocker and great defensive man. Ridley will be greatly missed next fall when it comes time to organize another football team. His playing in football at a forward has left nothing to be desired. Archie is an all-around athlete and one of the most popular members of the senior class. He will not graduate until June.

### Final Game Friday

Russell Battley, the smallest man on the varsity five, is one of the scrappiest forwards in the business, and he couples his unenviable floor ability with a defensive value that will be hard to replace. Basketball is the only sport that Battley has participated in. He is a smooth basketball player and worked the floor nicely, his passing being very accurate.

Both Battley and Ridley will be in the Butler game at Butler Friday night of this week, but it will be their final game with the New Castle high team. Those who follow New Castle to Butler will no doubt give this pair a big ovation.

### Gardner Changes Date For Game

Pitt Freshmen Basketball Team Will Play In New Castle January 29

Owing to the fact that President's Ball will be held on the night of Tuesday, January 30, Faculty Manager Ralph H. Gardner, of Senior high today changed the Pitt Freshmen-New Castle high basketball game for that date and set the game for Monday night, January 29.

This was a very popular move on the part of Gardner, as there are a number of persons who will want to attend both the dance and basketball game, and would not be able to do so if they were both on the same night.

New Castle high will have a tough battle with the Pitt Freshies led by Luke Rowe, and Andy Lasky, former New Castle high stars, both playing regularly with the Pitt Freshies.

Quite a large crowd will turn out to see Rowe and Lasky in action against their former mates.

**ZELIENOPLE WINS**

Zelenople High basketball team won a Section 18 victory last night at the Slippery Rock High floor 25 to 11. Sankay and Simmons were the high-point men. The victory gave Zelenople a 500 percentage with two won and two lost so far this year in the league.

**GRAPPLERS TO MEET AT Y. M. C. A.**

Fight and possibly nine grappling bouts will please patrons of catch-as-catch-can at the Y. M. C. A. There are several district champions among the boys who will represent the Boys' club of Erie who will compete against the boys who represent the New Castle Y. conquerors of W. & J.

Bach, line coach at Duquesne, was elevated to the head coaching position and signed a one-year contract. Bach came here in 1929 from Syracuse to aid Layden. Since he has been partially responsible for the success of the Dukes.

Layden leaves for South Bend Sunday to assume his duties as successor to Hearty (Hunk) Anderson as head coach at his alma mater.

### Three Stars On New Wilmington High Team Gone

Coach Whitman Faces Second Half Of Season Minus McMains, McClure, Minner

New Wilmington High School basketball team, is rather well crippled up at the present time, and the hopes of the 1933 champions of repeating are very slim this year. Coach Whitman is forced to start the second half of the County League play minus the services of such star performers as McMains, Minner and McClure.

McMains was declared ineligible due to scholastic standing, and will not play again this year, and on top of this misfortune Minner and McClure two more dependable performers left for a motorcycle trip to Arizona.

Lack of suitable replacements will work a hardship on the New Wilmington High team. Eagleson, Axe and Ferris are left as members of the varsity team.

### Billy Petrolle And Ross Will Meet Wednesday

(International News Service) NEW YORK, Jan. 23.—Billy Petrolle's challenge to Barney Ross, daring him to make it a close range fight at the New York Coliseum tomorrow night, has nettled Ross to the point of exasperation.

Ross resents the insinuation that he will make a run-away fight of it and points out that, with his precious lightweight title at stake, he stood, chest-to-chest, with Tony Canzoneri and actually forced Tony to "break ground" at least a dozen times.

Petrolle and Ross are fighting ten rounds—if—!!! "If" they go that far! Ole Uncle Will tells me that Ross won't answer the bell for the fourth round if he "comes" or "stands into it."

In short, Petrolle wants to trade punches. Will told me that Ross had said that he made Billy back away in the last four rounds of their Chicago bout, Ole Uncle Will was snorting mad.

### Restaurant Men In Convention

Regulations Of Liquor Sales And NRA Code Are Up For Discussion

(International News Service) PITTSBURGH, Jan. 23.—Regulation of liquor sales and operations under the NRA restaurant code were two important discussions to come before the Western Pennsylvania Restaurant Association convention in session here today.

At Cander, of Chicago, president of the National Restaurant Association was to discuss the restaurant code, while Ray Fling, of New York, was to speak on the regulation of liquor sales.

Other speakers today included: Rev. William Derr, Cincinnati; O. Edwin J. Tobin, Syracuse University; and W. C. Davis, marketing specialist of the United States department of agriculture; and Dr. Ben Graham, superintendent of Pittsburgh schools.

### Karns City Hi To Play Union

Union High Will Try Hard For Section 18 Victory On Home Floor

Union High school basketball team tied with Mars High for the leadership in Section 18 of the W. P. I. A. L. will play the fast Karns City high five tonight at the Union High floor, in a league encounter. The men faculty of New Wilmington High will play the Union High faculty in the preliminary game starting at 7:30 o'clock.

Coach Dave Boyd has the Union High team at the top of their game and they expect to take the measure of the invaders from Butler county tonight. Coach Boyd will start Monico and Boron at the forwards with Schaus at center and Morrison and White at the guards. This combination has been clicking beautifully.

**Union Must Win**

Union must win tonight to keep at the top of the heap if Mars takes the measure of the Evans City team at the Evans City High floor. Should Union win and Mars lose, the Boyd-men will be riding the crest of the league.

With a fast passing attack and uncanny shooting ability the Union High team should sweep right through the Section 18 league race like wildfire.

Mars and Evans City will be fighting it out for honors tonight. If Evans City wins from Mars they will tie for second place in the league. If Karns City should defeat Union it will make a three-way tie for the top rung.

## STOCKS

Stock Market  
Is Irregular

Rails, Utilities And Motors  
Move Down Moderately;  
Few Shares Advance

EASY TONE IN  
STEEL SHARES

(International News Service)  
NEW YORK, Jan. 23.—The stock market was irregular today as the rails, utilities and motors moved down moderately, while the metal shipbuilding and other selected shares advanced.

The market was highly nervous and there appeared to be a plentiful supply of stocks. Opening slightly lower, the list rallied in the first fifteen minutes but the rebound was not accompanied by large volume. Commodities markets were somewhat reactionary with wheat, corn and other grains losing fractionally. The cotton market slipped off another 25 cents a bale in light trading.

Easiness in United States Steel and other prime industrials was an adverse influence. American Can, however, was an outstanding strong spot setting up to a new high for the year at 103.

Chrysler again was in supply and lost about a point inducing selling in the other motor shares including General Motors. Auburn also was under pressure as a result of the Corp. report showing the disposal of most of its Auburn holdings.

Buying of the shipbuilding stocks including New York Shipbuilding and Electric Boat was predicted on the belief that the president would build the navy to a treaty basis. Rails and utilities ran into profit taking and lost from fractions to about a point.

Idle Two Days

Will Not Work Wednesday  
And Thursday Under  
New Ruling

Following the recent ruling of the State CWA administrator, the CWA workers engaged in Lawrence County will be idle on Wednesday and Thursday of this week, returning to work on Friday and working through Saturday. This applies to those workers who are getting 24 hours per week Rural workers who have been cut down to 15 hours per week will work seven and a half hours each on Monday and Tuesday of each week.

There will be no increases in the working force of the CWA in this county until such time as additional funds are appropriated according to Matthew Gunton, Deputy Administrator. The number here has been pegged at 3525. The total engaged in work here on all projects including highway work is 4590. The total CWA payroll to date in Lawrence County is \$174,180.47.

The status of the proposed wall along DuShane street at the Taggart Stadium is in doubt as yet. Under the decision of the Board of Zoning Appeals Monday the School Board is prohibited from building an eight foot wall. However, they have the legal right of building a five foot wall 20 feet back from the property line. If they so desire they can plant a tall hedge inside the wall which would shut off the view of the football games from the street.

Live "Blue Eagle"  
Attracts Passersby

NRA Bird In, Offutt Window  
Serves To Stress Na-  
tion's Recovery

Uncle Sam's Blue Eagle—the symbol of the NRA—came to life in the window of a downtown store today! Perched comfortably in a secure cage in the window of W. J. Offutt & company, the feathered bird who at a glance could tell that he is alive and as prosperous and healthy as a Blue Eagle should be.

Complying with the rules of the Society for the Prevention of Cruelty to Animals and following directions of the curators of the zoo at Washington, the bird's quarters are kept well ventilated and have a good supply of fresh water at all times. A pound of raw meat is fed to the Blue Eagle daily.

The bird's wing spread measures 8 1/2 feet. It weighs 18 1/2 pounds. If the Blue Eagle realizes that he is being used as an advocate of the NRA program, he gives no outward indication of it, although his presence in the window serves to call attention to it. A patriotic appeal of ground of red, white and blue lends emphasis to the patriotic appeal of the Blue Eagle.

Accuse Five In Louisiana  
City Of Trying To Vote  
While Fraudulently  
Registered

(International News Service)

NEW ORLEANS, La., Jan. 23.—Five persons were arrested today and lodged in jail on charges of perjury as New Orleans' tempestuous mayoral election, with the political dictatorship of Senator Huey Long at stake, opened.

All were accused of attempting to vote while fraudulently registered.

The hundred armed volunteer citizens, sworn in as watchers with super-police powers on agreement of the warring political factions, policed the voting places.

Stirred to fever pitch by a bitter election campaign that saw the defection of Mayor T. Semmes Walmsley's powerful ally, Huey Long Dictatorship, New Orleansians surged to the polls in what was expected to prove one of the largest votes on record.

Barring the arrests, resulting from the finding of approximately 5,000 fraudulent registrations on the election rolls by the district attorney's office after seizure of books from the Long-appointed registrar of voters, C. S. Barnes, there were no untoward incidents.
